

Consumer Information Notice

The New York State Environmental Conservation Law Article 33-0905 requires us to provide customers with information about the pesticides we will be using as part of the pest control program for your property. We are using this Consumer Information Notice to provide you with this information.

Pesticide labels and SDS are available upon request or can be found at: <http://www.bell-environmental.com/about-us/resources/SDS/>. Pesticide labels will provide information on application, general safety and precautions for each product. The products proposed for your facility are listed below; however, in the event that an alternate product is utilized, the label and SDS can be requested or accessed at the link above. Exact dates of treatment can be obtained from the contracting party or building manager.

Precautions:

There are basic precautions and instructions for any chemical, pesticide, rodenticide, herbicide, etc. Refer to the label for specific hazards to humans and domestic animals. The applicator may have specific instructions and precautions that must be followed before and after an application takes place. Refer to the code below for precautions for the pesticides that may be used at your facility.

1. Humans and pets should not contact treated areas until spray has dried.
2. Avoid breathing vapors or contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.
3. Cover or remove all food and food processing equipment during an application if necessary.
4. Food processing equipment and food-contact surfaces should be washed following an application if contacted by a pesticide.
5. Ventilate the area following a treatment, if prescribed by the applicator.
6. Do not re-enter the area following a treatment, if that is prescribed by the applicator.
7. Rodent baits only – if swallowed, this material may reduce the clotting ability of the blood and cause bleeding.
