

Entomologist / Field Supervisor

Position available for a degreed entomologist interested in commercial pest control operations with Bell Environmental Services, a family owned, well-established commercial pest control company located in northern New Jersey. Qualified candidate would be responsible for:

- designing pest management programs for commercial/industrial facilities including food processing plants, warehouses, health care facilities, office complexes, multi-unit residential buildings
- trouble-shooting pest issues in client accounts
- training pest control technicians in aspects of integrated pest management
- providing clients with written assessment reports of conditions within their facilities
- assessing work performance of service staff
- providing technical support to sales staff
- assisting senior entomologist with various managerial duties

Candidate must have:

- ability to perform detailed inspections
- ability to resolve challenging pest control issues
- ability to work as a member of a team
- good written and oral communication skills
- good organization skills
- good driving record
- knowledge of Microsoft Office computer programs
